NATIVA

PURE STONE

Dal dialogo fra l'universo naturale e la dimensione umana nasce la collezione Nativa, il fascino caldo e delicato del travertino, un materiale senza tempo che abita con essenziale eleganza gli spazi contemporanei.

Nativa è caratterizzata da un'intensa sovrapposizione fra grafica e struttura che genera profondità visiva e ricchezza al tatto.

The dialogue between the natural universe and the human dimension has given birth to the Nativa collection, with the warm, delicate beauty of travertine, a timeless material which brings a simple elegance to contemporary spaces.

Nativa is characterised by absolute matching between graphic design and structure, which generates visual depth and a rich tactile experience.

Vena e Falda riproducono i differenti tagli dei blocchi della cava, due grafiche dal forte impatto visivo, molto differenti fra loro e disponibili in numerosi formati negli spessori 6 - 9 - 20 mm. Il tutto arricchito da prodotti in struttura unici come Lapis e Armis.

Vena and Falda reproduce the different ways blocks are cut in the quarry: the two strongly contrasting, visually striking graphic designs are available in a wide assortment of sizes in 6 - 9 - 20 mm thicknesses. The collection is enhanced by the unique, structured Lapis and Armis products.
