K LAB

Made
by gres.

Klab è un contenitore che raccoglie tutto ciò che è "speciale": scalini, soglie, bordi piscina, ma anche mensole, lavabi, tavoli e molto altro ancora, negli spessori 1 cm, 2 cm e 6 mm, per interno ed esterno, tutti i pezzi speciali sono personalizzabili e commissionabili su misura in base ai prodotti in gamma.

Klab is a container that collects everything that is "special": steps, thresholds, pool edges, but also shelves, washbasins, tables and much more, in 1 cm, 2 cm and 6 mm thickness, for indoor and outdoor, all special pieces can be customized and commissioned to measure according to the current products.

Bespoke concept

Bespoke è un termine inglese utilizzato dalle grandi firme della moda per identificare i vestiti fatti "su misura". Kronos ha fatto propria questa filosofia per dare lo stesso tipo di servizio personalizzato ai clienti più esigenti, che possono quindi creare i pezzi speciali secondo le proprie esigenze sia estetiche che progettuali.

Bespoke is an English term used by the big names in fashion to identify clothes made by "tailored suit". Kronos has adopted this philosophy to give the same type of personalized service to the most demanding customers, who can create the special pieces according to their aesthetic and design needs.

RIPRESA DELLA COSTA SIDE FINISH

La ripresa della costa si rende utile e necessaria ogni volta che il fianco di una piastrella diventa visibile (per esempio nel caso di una lavorazione a toro) e consiste in un processo manuale per renderla esteticamente più omogenea con la finitura della superficie.

The Side Finish is useful and necessary whenever the side of a tile becomes visible (for example in the case of a “TORO” Shape). It consists of a manual process to make the tile more aesthetically homogeneous with the surface finish.
