RADOMONTE

RADOMONTE
- VENEZIA -

A Brand New Story To Tell.

Radomonte è un luxury brand italiano che firma rubinetteria di design, accessori e prodotti per il Wellness in acciaio inox.

Una visione che ha origine dalla trentennale esperienza nella produzione di rubinetteria di GEDA, casa madre del marchio, per dare forma a collezioni di prodotti di alta qualità che uniscono una artigianalità contemporanea a soluzioni tecnicamente innovative e rispettose dell'ambiente.

Il risultato, prodotti di design attenti ai più minuziosi dettagli, dove convivono una creatività ricercata e un fascino senza tempo.

Radomonte is an Italian luxury brand of designer mixers, accessories and products for Wellness made of stainless steel.

A vision that originates from the thirty years of experience in the production of mixers by GEDA, the parent company of the brand, to give shape to collections of high quality products that combine contemporary craftsmanship with technically innovative and environmentally friendly solutions.

The result are design products that have been studied up to the smallest detail, where refined creativity and timeless charm coexist.

Funzionalità. Design. Innovazione.

Le collezioni Radomonte nascono dall'esperienza e creatività di Stefano Macchion designer e fondatore del brand, che a partire da una raggiunta maturità di competenze dell'azienda nella produzione attraverso l'uso esclusivo dell'acciaio, ha voluto dare vita a un progetto che celebrasse la migliore qualità artigianale Made in Italy nel settore della rubinetteria di design.

Functionality. Design. Innovation.

Radomonte collections are born from the experience and creativity of Stefano Macchion – designer and founder of the brand – who, starting from the maturity of the company's skills in the production through the exclusive use of steel, wanted to give life to a project that celebrated the best of Made in Italy craftsmanship in the design tapware sector.

Design Is More

La ricerca creativa diventa un estremo atto di libertà. Il design dei prodotti Radomonte nasce da uno studio consapevole e attento dello stile che diventa poi atto di ribellione. Stravolgere le geometrie per giungere all'essenza della forma.

Ogni prodotto diventa la celebrazione di una storia e riesce a rendere la quotidianità una esperienza straordinaria.

Creative research becomes an extreme act of freedom. The design of Radomonte products comes from a conscious and careful study of style, which then becomes an act of rebellion. We twist the geometries to reach the essence of the shape.

Each product becomes the celebration of a story and manages to transform everyday life an extraordinary experience.

Solid With Charme

Tra le tendenze di design su cui si è concentrato negli ultimi anni il brand Radomonte c'è lo stile industriale, da cui hanno preso vita le collezioni Kàto e Kira.

Lo stile industriale nasce a metà degli anni Cinquanta quando gli architetti newyorkesi iniziarono a recuperare i magazzini e gli edifici industriali dismessi trasformandoli in abitazioni o atelier per artisti, come la celebre Factory di Andy Warhol.

La peculiarità di questi ambienti erano ampie superfici open space, in cui veniva mantenuta la struttura originale fatta di colonne, superfici materiche e tubature a vista.

Dallo stile industriale applicato al mondo del lusso nasce la corrente industrial chic, in cui l'iconica simbologia industriale si fonde con uno stile ricercato ed elegante. Il risultato sono ambienti in cui il rigore industrial si fa più morbido, dando vita ad atmosfere sofisticate e accoglienti. Per le personalità più eclettiche ed esigenti.

Among the design trends that Radomonte has focused on in recent years is the industrial style, from which the Kato and Kira collections have been created.

The industrial style was born in the mid-fifties when New York architects began to restore abandoned warehouses and industrial buildings, transforming them into homes or ateliers for artists, such as the famous Factory of Andy Warhol.

The peculiarity of these environments were large open spaces, in which the original structure made of columns, textured surfaces and exposed pipes was maintained.

The industrial chic trend is born from industrial style applied to the world of luxury, in which the iconic industrial symbolism blends with a refined and elegant style. The result can be seen in environments in which industrial rigor becomes softer, giving life to sophisticated and welcoming atmospheres. For the most eclectic and demanding personalities.

Hands Forging Beauty

Tutti i prodotti Radomonte sono realizzati esclusivamente in acciaio inox. Un materiale inerte, capace quindi di mantenersi inalterato nel tempo. La sua estrema resistenza superficiale lo protegge infatti dall'azione corrosiva di ruggine ed agenti esterni, garantendogli una durata eterna.

L'acciaio è una lega di ferro e carbonio che Radomonte usa nella variante AISI 316L, una variante dell'acciaio inox che, per il basso contenuto di carbonio, si caratterizza per essere ancora più resistente all'azione di sali e cloruri.

Radomonte products are made exclusively in stainless steel. An inert material, therefore able to remain unchanged over time. In fact, its extreme surface resistance protects it from the corrosive action of rust and external agents, guaranteeing an eternal duration.

Steel is an alloy of iron and carbon that Radomonte uses in the AISI 316L variant, a version of stainless steel which, due to its low carbon content, is characterized by being even more resistant to the action of salts and chlorides.

Le maniglie in vetro Radomonte sono realizzate in Vetro di Murano, secondo i metodi di lavorazione tradizionale dell'arte vetraria veneziana.

Ogni pezzo è realizzato artigianalmente e quindi unico.

Abbiamo scelto il vetro per le sue qualità ecologiche. Il vetro è atossico, perché composto solo da sostanze naturali. È resistente, igienico e riciclabile al 100%.

Per il suo riciclo, inoltre, necessita di temperature di fusione più basse con un conseguente risparmio energetico nella lavorazione.

Radomonte glass handles are made of Murano glass, according to the traditional processing methods of Venetian glass art.

Each piece is handcrafted and therefore unique.

We chose glass for its ecological qualities. Glass is non-toxic, because it is composed only of natural substances. It is resistant, hygienic and 100% recyclable.

Furthermore, for its recycling, it requires lower melting temperatures with consequent energy saving in processing.

Clearness And Tradition

Put On Some MakeUp

Le collezioni Radomonte sono realizzate in acciaio inox in finitura spazzolata o lucida.

L'acciaio spazzolato è disponibile anche in finitura PVD oro, bronzo, roseè e carbon. Il PVD (Physical Vapor Deposition) è un trattamento di qualità superiore che crea un sottilissimo film sulla superficie del prodotto, aumentandone la resistenza superficiale. Il trattamento PVD è una lavorazione biocompatibile, che non crea danni all'ambiente o alla salute delle persone.

Le maniglie in vetro di Murano della collezione Dorin sono disponibili nei colori ghiaccio o ambra.

Radomonte collections are made of stainless steel in brushed or polished finish.

Brushed steel is also available in gold, bronze, roseè and carbon PVD finishes. PVD (Physical Vapor Deposition) is a superior quality treatment that creates a very thin film on the surface of the product, increasing its resistance. PVD treatment is a biocompatible process, which does not cause damage to environment or to people's health.

The Murano glass handles of the Dorin collection are available in ice or amber colors.

Radomonte si impegna per una produzione nel rispetto dell'ambiente, sia nelle lavorazioni aziendali, garantite da un sistema di qualità e ambientale certificato, che a beneficio del cliente finale.

Nella progettazione dei prodotti Radomonte, oltre all'utilizzo di materiali ecologici e riciclabili come l'acciaio inox e il vetro, una attenzione particolare è data alle soluzioni per il risparmio energetico e il consumo intelligente.

Da questo è nato il marchio Eco Energy System, creato dall'azienda per certificare lo sviluppo e la realizzazione di progetti attraverso tecnologie e materiali mirati al rispetto e alla salvaguardia dell'ambiente.

Radomonte is committed to an environmentally friendly production, both in company processes, guaranteed by a certified quality and environmental system, and for the benefit of the end customer.

In the design of Radomonte products, in addition to the use of ecological and recyclable materials such as stainless steel and glass, particular attention is given to solutions for energy saving and intelligent consumption.

From this policy the Eco Energy System brand was born, created by the company to certify the development and implementation of projects through technologies and materials aimed at respecting and protecting the environment.

We Care About Tomorrow

The Wellness Collection.

Collezione Wellness.

Il vero lusso oggi è fare del benessere una scelta quotidiana, un percorso del corpo e dell'anima verso l'equilibrio e l'armonia. Soffioni, piastre e colonne doccia con funzioni benessere: getti a cascata, nebulizzazione, cromoterapia. Collezioni Wellness Radomonte in acciaio inox, per ricreare i meravigliosi rituali di una SPA anche tra le pareti di casa.

True luxury today is making wellbeing a daily choice, a path of the body and soul towards balance and harmony. Shower heads, ceiling plates and shower columns with wellness functions: waterfall spouts, nebulizers, chromotherapy. Radomonte Wellness Collections in stainless steel, to recreate the wonderful rituals of a SPA even within the walls of your home.

Soffione Ø 70 mm con 7 ugelli soft-flow e braccio a parete – SWN1.
Kit doccia completo con doccetta Ø 70 mm – K20
In abbinamento a rubinetteria serie Kira e accessori tondi, tutto in finitura roseè spazzolato PVD

Ø 70 mm shower head with 7 soft-flow nozzles and wall-mounted shower arm – SWN1
Complete hand shower kit with Ø 70 mm hand shower – K20
In combination with Kira tapware and round accessories, everything in brushed roseè PVD

Soffione Ø 70 mm con 7 ugelli soft-flow e braccio a parete, oro spazzolato PVD – SWN1
Soffione Ø 70 mm con 3 aeratori con funzione pioggia e braccio a parete, roseè spazzolato PVD – SWN2.

Ø 70 mm shower head with 7 soft-flow nozzles and wall-mounted shower arm, brushed gold PVD – SWN1

Ø 70 mm shower head with 3 rain function aerators and wall-mounted shower arm, brushed roseè PVD – SWN2

Soffione Ø 70 con 7 ugelli soft-flow e raccordo a parete con snodo – SWN3
Soffione a soffitto Bud con getto laminare splash-free – SSN2
In abbinamento a rubinetteria serie Kira e accessori tondi, tutto in finitura bronzo spazzolato PVD

Ø 70 mm shower head with 7 soft-flow nozzles and swivel shower arm – SWN3
Bud ceiling-mounted shower head with laminar splash-free aerator – SSN2
In combination with Kira tapware and round accessories, everything in brushed bronze PVD

Soffione Ø 70 con 3 aeratori funzione pioggia e raccordo a parete con snodo, carbon spazzolato PVD – SWN4
Soffione Ø 70 con 7 ugelli soft-flow e raccordo a parete con snodo, bronzo spazzolato PVD – SWN3

Ø 70 mm shower head with 3 rain function aerators and swivel shower arm, brushed carbon PVD – SWN3
Ø 70 mm shower head with 7 soft-flow nozzles and swivel shower arm, brushed bronze PVD – SWN3

one waterfall and nebulizers, brushed roseè PVD – PIA15

Piastra a soffitto Ø 570 mm con funzione pioggia con cromoterapia perimetrale, inox spazzolato – PIA31
In abbinamento a rubinetteria serie Aico, inox spazzolato.

Ceiling-mounted ceiling plate Ø 570 mm with rain shower function with perimetral chromotherapy, brushed steel – PIA31
In combination with Aico tapware, brushed steel.

Piastra a soffitto 370x370 mm con funzione pioggia e con cromoterapia perimetrale, inox spazzolato – PIA29

Piastra a soffitto in acciaio inox Ø 570 mm con funzione pioggia con cromoterapia perimetrale, oro spazzolato PVD – PIA31.

Ceiling-mounted plate 370x370 mm with rain shower function with perimetral chromotherapy, brushed steel – PIA29

Ceiling-mounted plate Ø 570 mm with rain shower function with perimetral chromotherapy, brushed gold PVD – PIA31.

Piastra a soffitto in acciaio inox 700x400 mm con una cascata, pioggia, nebulizzatori e cromoterapia, carbon spazzolato PVD – PIA22
Piastra a soffitto in acciaio Ø 420 mm con cromoterapia, inox spazzolato – PIA19

Stainless steel ceiling shower plate 700x400 mm with one waterfall, rain shower, nebulizers and chromotherapy, brushed carbon PVD – PIA22
Stainless steel ceiling shower plate Ø 420 mm with chromotherapy, brushed steel – PIA19

Piastre a soffitto Ø 200 mm. Funzione pioggia - cod. SSN3 / Funzione cascata - cod. SSN4
Funzione nebulizzatori - cod. SSN5 / Funzione cascata tropicale - cod. SSN6
Piastre nere opache, cover inox spazzolato

Ø 200 mm ceiling-mounted shower plate. Rain shower function - code SSN3 / Waterfall function - code SSN4 / Nebulizer function - code SSN5 / Tropical waterfall function - code SSN6
Matt black plate, brushed steel cover.

Soffione Nise quadrato per installazione angolare,
inox spazzolato - SOF34

Nise squared wall-mounted shower head for corner
installation, brushed steel - SOF34

Soffione Nise stondato per installazione angolare, inox
spazzolato – SOF33

Nise rounded wall-mounted shower head for corner
installation, brushed steel – SOF33

Soffione Tomo quadro ispezionabile 325x325 mm spessore 10 mm,
oro spazzolato PVD – SOF4
Braccio doccia a parete piatto rinforzato, oro spazzolato PVD – BRA3

Tomo 325x325 mm squared inspectable shower head, 10 mm thickness,
brushed gold PVD – SOF4
Wall-mounted flat reinforced shower arm, brushed gold PVD – BRA3

Soffione a parete Bud con effetto doccetta – SPN1
Soffione a parete Bud con getto laminare splash-free – SPN2
Kit doccia completo con doccetta Ø 70 mm – K20
In abbinamento a rubinetteria serie Toki e accessori tondi,
tutto in finitura roseè spazzolato PVD

Bud wall-mounted shower head with rain shower effect – SPN1
Bud wall-mounted shower head with laminar splash-free aerator – SPN2
Complete hand shower kit with Ø 70 mm hand shower – K20
In combination with Toki tapware and round accessories,
everything in brushed roseè PVD

Asta saliscendi tonda, bronzo spazzolato PVD – ASN1
Doccetta Ø 70 mm, bronzo spazzolato PVD – DWN2
Flessibile nero opaco – FLEX 1N

Round shower bar, brushed bronze PVD – ASN1
Ø 70 mm hand shower, brushed bronze PVD – DWN2
Matt black flexible hose – FLEX 1N

Colonna doccia per esterni con soffione Ø 70 mm con 3 aeratori con
funzione pioggia - CDE1
In abbinamento con accessori tondi, tutto in finitura inox spazzolato

Outdoor shower column with Ø 70 mm shower head with 3 aerators
with rain function- CDE1
In combination with round accessories, everything in brushed steel

Colonna doccia per esterni con soffione Ø 100 mm e doccetta di servizio - CDE3
In abbinamento con accessori tondi, tutto in finitura inox spazzolato

Outdoor shower column with Ø100 mm shower head and hand shower - CDE3
In combination with round accessories, everything in brushed steel

Installazione a soffitto piastre doccia / Ceiling shower plates installation

Le piastre Radomonte per installazione a soffitto e/o controsoffitto sono dotate di un telaio di sostegno con alette di fissaggio e viti.

Non è presente una parte ad incasso per la quale si renda necessaria la fornitura anticipata.

È sufficiente predisporre la sede della piastra, utilizzando come riferimento la dimensione del telaio indicata nelle schede tecniche del prodotto.

Radomonte plates for ceiling and/or false ceiling installation are equipped with a support frame with fixing flaps and screws.

There isn't any built-in part that will need to be supplied in advance.

The fitter will only need to arrange the housing of the plate, using as a reference the size of the frame indicated in the technical data sheets of the product.
