Il mosaico CERAMICHE DAYTONA è progettato per il rivestimento a parete di bagni e cucine.
Il mosaico, realizzato su supporto BI-NATURAL, segue le certificazioni CE secondo le norme internazionali UNI EN 14411.

The CERAMICHE DAYTONA mosaic is designed for bathroom and kitchen walls.
The mosaic, laid over a BI-NATURAL support, adheres to CE certification in accordance with UNI EN 14411 international standards.

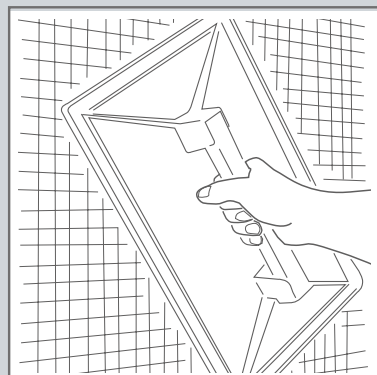

La posa del mosaico è facile e veloce, come le normali piastrelle di ceramica; utilizzare i tradizionali collanti in commercio.

The mosaic laying process is easy and quick, just as it is for normal ceramic tiles; use traditional commercially available adhesives.

Per ottenere il miglior effetto a parete del mosaico, posare le singole piastrelle a giunto unito, cioè senza l'utilizzo di distanziali; successivamente stuccare l'intera superficie con fuganti di qualità e del colore preferito.

To achieve the best possible mosaic effects on the wall, lay the individual tiles in a narrow joint arrangement, without using spacers; then grout the entire surface with a high quality product in the desired colour.

I solchi che delimitano le tessere sono appositamente incisi e non smaltati per consentire la massima aderenza dello stucco in fase di finitura. Una volta posato, il mosaico non ha bisogno di cure particolari, per mantenere nel tempo la brillantezza della superficie è sufficiente passare un panno umido.

The grooves marking the edges of the squares are deliberately cut and not glazed to offer optimum grout adherence during the finishing process. Once laid, the mosaic does not need any special care; to keep the surface looking shiny for longer, simply wipe regularly with a damp cloth.

1 - APPLICABILITÀ DELLE CONDIZIONI

1.1. Le Presenti condizioni generali (qui di seguito "le CONDIZIONI") costituiscono parte integrante di tutti i contratti di vendita delle piastrelle ed altro materiale ceramico (qui di seguito "I PRODOTTI") a cui sia parte CERAMICHE DAYTONA S.p.A. (qui di seguito "I FABBRICANTE"). Salvo singoli casi in cui esse siano state derogate con espresse pattuizioni scritte a firma del FABBRICANTE, esse costituiranno la disciplina esclusiva di tali vendite. Se una o più parti di tali CONDIZIONI o dei singoli contratti che le includono risultassero invalide, le CONDIZIONI generali o particolari resteranno valide nel loro complesso; le parti invalidi saranno sostituite con pattuizioni che si avvicinino il più possibile alla originaria volontà delle parti.

2 - CONCLUSIONE DEL CONTRATTO DI VENDITA CONSEGNA DEI PRODOTTI

2.1. Il contratto si intende concluso al momento in cui il proponente o l'ordinante vengano a conoscenza del consenso scritto della controparte.

2.2. L'ordine non confermato per iscritto in nessun caso potrà intendersi accettato salvo esecuzione del medesimo da parte del FABBRICANTE mediante spedizione o consegna dei PRODOTTI.

La consegna parziale di PRODOTTI ordinati non comporta l'accettazione dell'intero ordine, ma solo di quella parte di PRODOTTI effettivamente consegnati.

2.3. Salvo diverso accordo scritto, la consegna dei PRODOTTI e la resa degli stessi in Italia e all'estero avverrà secondo la formula di "Franco Fabbrica".

2.4. Salvo diverso accordo, tutte le date indicate come termine di consegna si intendono a titolo indicativo.

3 - CARATTERISTICHE DEI PRODOTTI - GARANZIA - RECLAMI

3.1. Le piastrelle in ceramica ed altri PRODOTTI ceramici fabbricati da CERAMICHE DAYTONA S.p.A. sono conformi alle norme europee UNI-DIN-EN. Il FABBRICANTE vende esclusivamente a Rivenditori professionali, questi sono responsabili della correttezza delle informazioni tecniche fornite agli utilizzatori finali e/o negozi al dettaglio. La classificazione del prodotto è indicata dal FABBRICANTE sul materiale pubblicitario e/o sui listini prezzi. l'Acquirente deve di conseguenza utilizzare i PRODOTTI sulla base della classificazione fornita dal FABBRICANTE. Per facilitare le indicazioni di utilizzo, ed adattare le classificazioni standard alle specificità della produzione del Fabbricante, a fronte di ogni prodotto, nei listini o sui cataloghi sono posti dei segni che indicano l'uso specifico consigliato dal FABBRICANTE.

3.2. Le differenze di tonalità non sono un difetto del PRODOTTO bensì una caratteristica dello specifico materiale cotto ad alte temperature. Il particolare requisito di ingelività si applica solo ai PRODOTTI che il FABBRICANTE garantisce espressamente con apposita indicazione sul materiale pubblicitario e/o listini. In mancanza di tale indicazione i materiali ceramici si considerano solo ed unicamente per uso in interni o comunque in locali protetti dalle intemperie.

3.3. I materiali in ceramica con superficie lucida non possono mai essere utilizzati in locali a piano terreno con accesso all'esterno, né in locali in cui sia previsto un grande calpestio. Le piastrelle brillanti sono inoltre suscettibili di una certa scivolosità, specialmente se bagnate, il FABBRICANTE ne sconsiglia di conseguenza l'uso in locali pubblici. Per i locali ove sia previsto un grande calpestio l'acquirente dovrà acquistare solo i PRODOTTI classificati dal FABBRICANTE come PEI V, ed in particolare quelle piastrelle che il FABBRICANTE consiglia SPECIFICAMENTE per uso in locali pubblici.

3.4. Le rappresentazioni dei PRODOTTI sui depliant ed altri materiali pubblicitari del FABBRICANTE sono puramente illustrative e non rappresentano necessariamente il risultato estetico finale di posa dello PRODOTTO rappresentato.

3.5. Il FABBRICANTE garantisce la buona qualità e l'assenza di vizi nei PRODOTTI forniti. La garanzia non si applica per PRODOTTI classificati dal FABBRICANTI per qualità inferiori alla 1° scelta o per partite di PRODOTTI di fine serie, vendute in blocco e segnalate come partite speciali. È comunque prevista una tolleranza del 5%.

3.6. Il FABBRICANTE non è responsabile per vizi e/o anomalie rilevate sui PRODOTTI non dovuti alla qualità dei PRODOTTI stessi ma all'uso improprio degli stessi da parte degli acquirenti e/o dei suoi aventi causa. In particolare il FABBRICANTE non accetta reclami o contestazioni in relazione alle situazioni precedentemente descritte.

3.7. I reclami devono essere comunicati dall'acquirente al FABBRICANTE entro 8 giorni dalla consegna della merce. Per vizi occulti il termine è di otto giorni dalla scoperta del vizio. In nessun caso il FABBRICANTE risponderà per vizi che vengano denunciati dopo 12 mesi dalla consegna dei PRODOTTI all'Acquirente. Per i vizi occulti la garanzia si applica fino a due anni dopo la consegna dei prodotti al primo acquirente (e del fabbricante). La denuncia di vizio dovrà essere notificata al FABBRICANTE tassativamente entro e non oltre 8 giorni dalla scoperta.

3.8. In generale la garanzia si applica solo per vizi rilevati in prodotti non ancora posati. Per eventuali vizi occulti rilevabili solo successivamente alla posa, ai fini dell'applicazione della garanzia, è necessario che il FABBRICANTE accerti che la posa sia stata eseguita a regola d'arte (norme DIN 18352).

3.9. La garanzia del FABBRICANTE si limita alla sostituzione dei prodotti difettosi con altri dello stesso tipo esenti da vizi, trasporto incluso.

È escluso il rimborso di altri oneri e/o spese accessorie e, in particolare i costi di demolizione e riposatura dei PRODOTTI.

In tutti i casi la garanzia del FABBRICANTE non potrà eccedere tre volte il valore del materiale contestato, con un massimo assoluto di € 5.000,00.

3.10. Il FABBRICANTE non risponde per reclami dovuti ad una classificazione del materiale ceramico da parte di organismi di controllo e/o certificazione esteri, diversa da quella italiana, sulla base di specifiche tecniche che non corrispondano a quelle utilizzate dal FABBRICANTE.

Eventuali esperti tecnici attivati dagli acquirenti dovranno necessariamente basarsi sulla conformità del materiale venduto alle specifiche tecniche indicate dal FABBRICANTE, in vigore in Italia.

4 - PREZZI E CONDIZIONI DI PAGAMENTO

4.1. I prezzi di vendita dei PRODOTTI sono quelli indicati nel listino del FABBRICANTE in vigore al momento della conferma dell'ordine. In casi di contratti di vendita a consegne ripartite il prezzo, se non convenuto fermo per iscritto, sarà quello del listino in vigore al momento delle singole consegne.

Per tutti i PRODOTTI destinati all'estero i prezzi potranno essere calcolati, a scelta dal FABBRICANTE, nella valuta estera del paese di destinazione o in euro.

4.2. Tutte le spese bancarie e di negoziazione sono a carico dell'Acquirente. In caso di ritardo dei pagamenti, il FABBRICANTE avrà diritto a percepire, senza alcuna necessità di messa in mora, oltre agli eventuali danni, un interesse moratorio pari al tasso ufficiale di sconto in Italia maggiorato del 3%.

5 - AGENTI DEL FABBRICANTE

5.1. Gli agenti del FABBRICANTE promuovono le vendite e non sono autorizzati ad agire in nome e per conto del FABBRICANTE salvo specifica autorizzazione scritta.

5.2. Gli ordini trasmessi dagli agenti non vincolano il FABBRICANTE e devono quindi essere espressamente accettati per iscritto dal FABBRICANTE stesso.

6 - RISERVATO DOMINIO

6.1. È convenuto tra le parti che la vendita dei PRODOTTI è effettuata con riserva di proprietà a favore del FABBRICANTE sino al totale pagamento del prezzo pattuito, ai sensi dell' art. 1523 e seguenti del c.c. Tuttavia il rischio di perimenti della merce passa all' acquirente dal momento della consegna dei PRODOTTI. Nella vendita all'estero, nel caso in caso in cui la merce sia venduta e consegnata a clienti terzi prima del passaggio di proprietà, nell'ambito di normali rapporti commerciali dell'Acquirente stesso, la riserva di proprietà a favore del FABBRICANTE permane anche nei confronti dei terzi, ove la legge lo consenta.

6.2. In caso di mora dell'Acquirente il FABBRICANTE potrà, senza necessità di alcuna formalità, compresa la messa di mora, ritirate tutta la merce oggetto di riservato dominio ed eventualmente, se la legge lo consente, tutti i titoli di credito verso terzi ad essa afferenti, con riserva di ogni ulteriore opportuno rimedio in via giudiziale per il pregiudizio subito.

7 - FORZA MAGGIORE

7.1. Il FABBRICANTE non è responsabile nei confronti dell' Acquirente per ogni inadempimento, compreso la mancata o ritardata consegna, causata da eventi al di fuori del suo ragionevole controllo quali, a titolo meramente indicativo, mancata o ritardata consegna dei materiali di lavorazione da parte dei fornitori, guasti agli impianti, scioperi ed altre azioni sindacali, interruzione dei flussi energetici, sospensione o difficoltà dei trasporti.

8 - DIRITTO APPLICABILE - FORO COMPETENTE

8.1. I contratti di vendita all'esportazione cui sia parte il FABBRICANTE sono regolati dalla legge italiana, ed in particolare dalla Conservazione sui Contratti di Vendita Internazionali di beni mobili, ove non derogata dalle presente CONDIZIONI e dalla Convezione di Vienna dell'11 Aprile 1980.

8.2. Foro competente per tutte le controversie relative alle vendite di PRODOTTI da parte del FABBRICANTE e dei rapporti connessi a tali vendite è il FORO della sede legale del FABBRICANTE, anche qualora l'azione promossa riguarda titoli di credito rilasciati al FABBRICANTE quali mezzi di pagamento.

1 - APPLICABILITY OF CONDITIONS

1.1. These general conditions (the "CONDITIONS") constitute the most important part of each contract of sale of tiles and any other ceramic material (the "PRODUCTS") in which CERAMICHE DAYTONA S.p.A. (the MANUFACTURER) is one of the parties.

Excepted single cases in which they have been derogated by explicitly written agreements signed by the MANUFACTURER, they will constitute the exclusive discipline of such sales. If one or more parts of these CONDITIONS, or of single contracts including them, result to be invalid, the general or the particular CONDITIONS will remain valid as a whole: invalid parts will be substituted through agreements that are as close as possible to the original will of the parties.

2 - CONCLUSION OF THE CONTRACT OF SALE - DELIVERY

2.1. The contract is intended to be concluded at the moment in which the written consent of the counterpart has come to the knowledge of the proponent and of the person ordering the contract.

2.2. The order that has not been confirmed in writing cannot be considered accepted in any case, except for the performance of the contract itself by the MANUFACTURER through shipment or delivery of the PRODUCTS. The partial delivery of ordered PRODUCTS doesn't involve that the whole order has been accepted, but only that part of PRODUCTS actually delivered.

2.3. Except a different written agreement, the delivery of PRODUCTS in Italy or abroad will take place "ex-works".

2.4. Except a different agreement, all the dates given as delivery dates are intended in a indicative sense.

3 - CHARACTERISTICS OF THE PRODUCTS - WARRANTY - COMPLAINTS

3.1. Ceramic tiles and other ceramic PRODUCTS produced by CERAMICHE DAYTONA S.p.A. comply with European norms UNI-DIN-EN.

The MANUFACTURER sells exclusively to professional resellers that are responsible for the accuracy of technical informations given to final users and/or to retailers.

The classification of a product is indicated by the MANUFACTURER on advertising material and/or on price lists. Therefore the purchaser must use the PRODUCTS according to the classification given by the MANUFACTURER. To facilitate the directions for the use of products and to adapt standard classifications to the specificity of the production, marks connected with each single product are put in price lists and catalogues, indicating the specific use advised by the MANUFACTURER.

3.2. Differences in the tone are not defects of the PRODUCT but a characteristic of the specific material fired at high temperatures. The particular requisite of frost resistance is applied only to those PRODUCTS explicitly guaranteed by the MANUFACTURER with the relative indication on advertising material and/or price list. In case this indication is not given, ceramic materials are considered only and exclusively for indoor use or use in places protected from bad weather.

3.3. Ceramic materials with polished surface can never be used in places located on the ground floor with access outside or in places with great pedestrian traffic. In addition polished tiles are susceptible for a certain slipperiness especially when they are wet. The MANUFACTURER advises therefore not to use them in public places. In places with great pedestrian traffic the purchase will have to buy only those PRODUCTS classified by the MANUFACTURER as PEI V, and in particular those tiles that the MANUFACTURER advises SPECIFICALLY for use in public places.

3.4. The pictures of the PRODUCTS on leaflets and on other advertising material by the PRODUCER are only illustrative and they don't represent necessarily the final esthetic result of laying of the PRODUCT.

3.5. The MANUFACTURER guarantees the good quality and the absence of defects of the products supplied, the warranty is not applied to those PRODUCTS classified by the MANUFACTURER as non-first-quality products or to lots of PRODUCTS of the end of a series, sold in bulk and pointed out as special lots. However a 5% tolerance is provided.

3.6. The MANUFACTURER is not responsible for defects and/or anomalies found out in the PRODUCTS that are not due to their quality, but to an improper use of them by the purchasers and/or by their assignees. In particular the MANUFACTURER doesn't accept complaints or contestations concerning the above mentioned situation.

3.7. Complaints must be communicated by the purchaser to the MANUFACTURER within 8 days from the delivery of goods. In case of defects, the term is 8 days from the discovery. In any case the MANUFACTURER is not responsible for the defects denounced 12 months after the delivery of the PRODUCTS to the purchaser. In case of hidden defects the warranty is applied up to 2 years after the delivery of the PRODUCTS to the first purchaser. The denunciation of defects must be notified to the MANUFACTURER within and not later than 8 days from the discovery.

3.8. In general the warranty is applied only for defects found out in products that have not yet been layed. In case of hidden defects, detectable only after laying, it's necessary for the MANUFACTURER to verify that the laying has been carried out duly (conforming to DIN 18352).

3.9. The MANUFACTURER's warranty is limited to the substitution of faulty PRODUCTS with other products of the same model without defects, freight included. The reimbursement of other expenses or additional costs, and in particular demolition costs and money paid for a second laying of the PRODUCTS is excluded. In any case the MANUFACTURER's warranty cannot exceed 3 times the value of the contested material, with an absolute maximum

of € 5.000,00.

3.10. The MANUFACTURER is not responsible for complaints due to a classification of the ceramic material by foreign bodies for control and/or certification, that is different from the Italian one, according to technical specifications that don't correspond to those used by the MANUFACTURER.

In case of technical expertise activated by the purchaser, this must be necessarily based on the conformity of the sold material with the specifications indicated by the MANUFACTURER in force in Italy.

4 - PRICES AND CONDITIONS OF PAYMENT

4.1. The sale prices of PRODUCTS are those indicated in the price list of the MANUFACTURER in force at the moment of the confirmation of the order. In case of contracts of sale and delivery of goods divided in parts, and if there is no written agreement on the subject, the price is the one indicated in the price list in force at the moment of the delivery of each single portion of goods.

For all the PRODUCTS destined to the foreign market prices can be calculated at MANUFACTURER's choice in the foreign currency of the destination country or in euro. Every bank and negotiation costs have to be debted to the Purchaser. In case of delay in the payment the MANUFACTURER has the right, without the necessity of putting into mora to cash a moratory interest amounting to the official discount rate in Italy, plus 3%, apart from economical damages occurred.

5 - MANUFACTURER'S AGENTS

5.1. The MANUFACTURER's agents promote sales but are not authorized to act in the name and on the behalf of the MANUFACTURER, except in case of a specific written permission.

5.2. The orders transmitted by the agents don't bind the MANUFACTURER. Therefore they must be accepted explicitly in writing by the MANUFACTURER.

6 - RESERVED DOMINION

6.1. It's agreed between the parties that the sale of the PRODUCTS is carried out with reserve of propriety in favour of the MANUFACTURER up to the total payment of the agreed price, according to the Italian Civil Code, art. 1523 and following. However the risk of deterioration of the goods passes to the purchaser from the moment of delivery of the PRODUCTS. In the sales of the PRODUCTS abroad, in case the goods are sold and delivered to third customers before the transfer of title, within the ordinary trade relations of the purchaser himself, the reserve of property in favour of the MANUFACTURER remains also towards third customers, when the law permits it.

6.2. In case of mora of the Purchaser, the MANUFACTURER can take back all the goods object of reserved dominion without any formality, included the putting into mora, and if the law permits it, all documents of credit to third people relative to these goods, with reserve of any proper legal remedy for the prejudices suffered.

7 - SUPERIOR FORCE

7.1. The MANUFACTURER is not responsible towards the Purchaser for non-fulfilment, included non-delivery or delay in delivery due to events outside his reasonable control, as for example non-delivery or delay in delivery of materials by the suppliers, breakdown of plants, strikes or other sindical actions, interruption of energy supply, interruption or difficulty of transports.

8 - APPLICABLE LAW - COMPETENT COURTS

8.1. The contracts of sale to export in which the MANUFACTURER is one of the party are governed by the Italian law and in particular by the "Preservation of International Contracts of Sale" of movables, where it's not derogated by these CONDITIONS and by the Convention of Vienna (11 April 1980).

8.2. The competent court for any controversy concerning the sale of the PRODUCTS by the MANUFACTURER and the trade relation connected with the above mentioned sales is the court of the registered office of the MANUFACTURER, even when the legal action started concerns documents of credit released to the MANUFACTURER, as means of payment.
